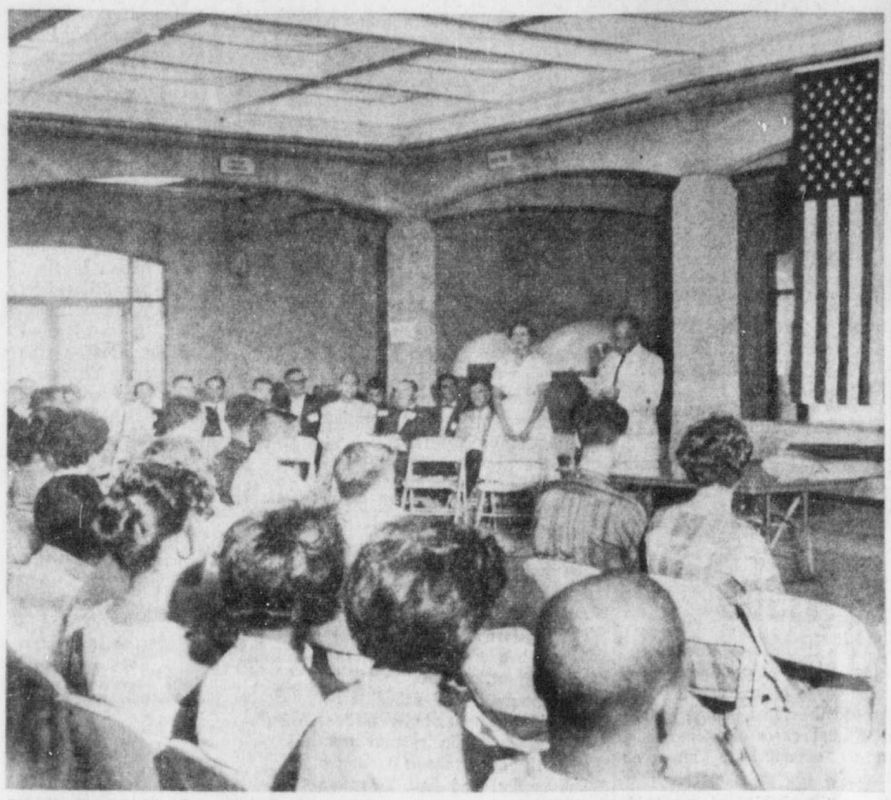
JFK Foreign Aid Bill Slashed $1.1 Billion



FACULTY INTRODUCTION took place at the new College of the Desert yesterday as nearly 500 students took part in the first day's activities of registration week. Dean Edwin T. Ingles (at microphone) introduced individual faculty members seated at his right while students are in foreground. Standing faculty member is Mrs. Betty Blauw, director of food services and chairman of the home economics department. Introduction took place in the dining hall. (See story on Page 3).

Space Shot To Check On Weather

Canaveral Sends Rocket for Data On Schirra Trip

CAPE CANAVERAL (UPI) —America's sixth Tiros satellite was rocketed into orbit today to look for hurricanes and to photograph the world's weather for the upcoming space flight of astronaut Walter M. Schirra.

The 281-pound Tiros VI was blasted into space aboard a three-stage Delta rocket at 4:53 a.m. EDT. Within minutes, it was soaring around the globe at a speed of 17,000 miles per hour.

The new "weather-eye" satellite, originally set for a November launching was rushed to the firing pad two months ahead of schedule so it could help its crippled "brother," Tiros V, in two key missions.

During the next month, Tiros V and VI will search for late season tropical storms in the Atlantic and Pacific oceans "hurricane belt" around earth's middle.

Also, America's Project Mercury will depend on the two satellites to provide highly accurate global weather forecasts for Schirra's six-orbit flight, now scheduled for Sept. 28.

Tiros VI carries a pair of tiny but sensitive television cameras which can photograph hundreds of miles of weather at one click of the shutter,. and radio equipment to relay the pictures to tracking stations on earth.

Tiros VI, shaped like a drum, was stripped of some of its equipment for the rushed-up launching. The items left behind included infra-red measuring equipment, which meant the satellite's work would be limited to daylight hours when there was enough sunlight on its subject, earth's cloudcover, for its cameras.

Deeper Cut in Military Fund Gets Refusal

WASHINGTON (UPI) — The House Appropriations Committee today cut a record $1.1 billion from President Kennedy's $4.7 billion foreign aid money bill but refused to go along with an even deeper cut in military aid funds.

The committee also included a provision which would ban the use of the funds to aid Yugoslavia and Poland.

Rep. Otto E. Passman, D-La. chairman of a foreign aid subcommittee and a traditional critic of the program, blocked his own subcommittee's recommendation for a $1.4 billion cut in the administration's request.

The subcommittee, to Passman's surprise, Monday adopted a one-third cut in Kennedy's request for $1.5 billion in military aid funds this year.

When the full committee met today, Passman successfully moved to boost the subcommittee's $1 billion recommendation to $1.3 billion.

The over-all cut, however, still was the heaviest imposed by the Appropriations Committee in the 15-year history of the aid program.

Administration officials warned only last week that a cut of as much as $1 billion would have "grave" implications.

The provision to prohibit aid to any country with a government based on Communist "theory" is a reversal of earlier House action. It could block arms aid to Yugoslavia and shipment of surplus farm commodities to Poland.

Only a few months ago, the House agreed to let the President continue aid to these countries when he deemed it in the national interest.

NEWS in BRIEF

SAIGON, Viet Nam (UPI) — Seven U.S. military men were injured today, four seriously, when a U.S. Army helicopter in which they were riding crashed about 285 miles north of Saigon.

Four other U.S. Air Force officers escaped injury earlier when a youth tossed a grenade into their car in Saigon.

NEW YORK (UPI) — Former President Herbert Hoover, 88, who underwent surgery last month, was discharged from Columbia Presbyterian Medical Center today.

DAWSON, Ga. (UPI) — The FBI said Monday night that four men had confessed to burning a south Georgia Negro church during a beer drinking spree.

Agents said there was no indication the group was involved in other church burnings believed motivated by Negro voter registration campaigns in the area.

WASHINGTON (UPI) — The State Department announced today that plans are now set for an informal inter-American foreign ministers meeting here Oct. 2 on Cuba.

Department spokesman Lincoln White said 19 Latin American governments have agreed to send their foreign ministers or other representatives to discuss such problems as the Soviet arms build-up in Cuba.

STOCKHOLM, Sweden (UPI)— Swedish scientists reported the Soviet Union set off a 9-megaton nuclear explosion today at its Arctic testing site of Novaya Zemlya.

The blast was detected by monitoring devices at Stockholm University.

Job Office Will Serve New College

PALM DESERT — An on-campus, job-placement service emphasizing part - time employment opportunities was established today for students at the College of the Desert just three days before the first Coachella Valley Junior College begins first classes.

The new service, replacing the former Palm Desert office of the California State Employment Service was jointly announced by Dr. Roy C. McCall, college president, Dr. Howard Impecoven, dean of students, and Richard J. Nelson, Indio area manager of the state employment service.

The College of the Desert office, located in the school administration building, will be operated from 10 a.m. through 2 p.m. Monday through Friday by Mrs. Lucille DeuPree. Mrs. DeuPree, a long-time valley resident, will spend additional time contacting employers throughout the resort area to develop part-time jobs for students.

Dr. Impecoven predicted that many students will need supplemental work incomes and explained the on-campus service, operating through the student lunch hour, will provide ready access and referral for student workers.

Advisors Ask Ease of Parking Requirements

Elimination of the Palm Springs central business district from upgraded off-street parking requirements recommended for the city by the planning commission was urged this morning by the City Traffic Advisory Commission.

The action came after a planning board resolution recommending that off-street parking requirements be increased throughout the city was read to the traffic commission.

The effects of the new requirements were explained by Public Works Director Thomas W. Essen and planning associate Richard J. Smith.

These officials along with members of the traffic commission agreed that the increased requirements undoubtedly would create a hardship in the already heavily developed area along Palm Canyon Drive and portions of Indian Avenue and probably would hinder or prevent future improvements.

In another action, the traffic commission approved a compromise agreement on a plan to control traffic flow near the tramway access road.

Tram Center Tops Agenda Of Planners

Plans for a shopping center on Palm Canyon Drive at the turnoff to the Mt. San Jacinto Tramway top the agenda tomorrow for a session of the Palm Springs Planning Cocmission.

The project, covering a super market, three other store buildings and a service station, involves a conditional use permit sought by developer Culver Nichols for 10 acres at the southwest corner of Palm Canyon Drive and Tram Road.

It has been before the planners since July, but previously the service station, proposed for the corner of the intersection has held principal attention of the planners. Plans were developed by Phil Abrams, former city engineering chief.

Other items on the agenda for the session at 1:30 p.m. in the council chamber include parking facilities at the lower tramway terminal, a zone change for Fairfield Homes, Inc., a zone change for F & S Management & Investment Corp., plans for a building at Palm Canyon and Arenas Road and landscaping for TraveLodge Hotel.

Delegates to U.N. Gather For Opening

UNITED NATIONS, N.Y. (UPI) — Delegates from 104 nations gathered for the opening of the 17th annual General Assembly today confronted with a workload of political and economic problems that may carry it into next year.

Africa, Berlin and Cuba are expected to dominate the debates even though the latter two items, like the perennial demand to seat Red China, are not on the 89-point proposed agenda.

The Soviet Union indicated it would make another frontal attack to change the composition of the U.N. secretariat more to its own tastes.

The Communist party newspaper Pravda said in Moscow today that "the U.N. mechanism calls for improvement, specifically its secretariat where the domination of the United States and its partners in aggressive blocs still continues, since they occupy two-thirds of all posts."

Refugees Tunnel Under Berlin Wall to Freedom

BERLIN (UP) — Fifty - nine refugees tunnelled under the Berlin wall early Saturday to West Berlin in the largest mass escape since the wall was built, a West Berlin city government spokesman announced today.

The 59 men, women and children banded together and built their tunnel so secretly that the Communists did not discover it even after the successful escape.

News of the flight was disclosed at a news conference today after rain flooded the tunnel so it could no longer be used.

It was the largest number of people to flee in one group since the wall went up Aug. 13, 1961.

The previous high was 28 through another tunnel on Jan. 24.

In another development, West Berlin police reported that Communist police threw 25 tear gas grenades into the West over a barbed wire barrier on the French sector border. West Berlin police said they retaliated with 25 of their own.

The Communists began the battle when a West Berlin loudspeaker truck drove along the border of the Reinickendorf District broadcasting anti-Communist news.

Earlier in the day, Western tanks and troops occupied strategic points in West Berlin in an exercise designed to test their ability to defend this isolated city.

In another escape, three boys burrowed through a cemented-up cellar door of a border house Monday night.

Shadow Mtn. Bug Bunnies Given Reprieve

PALM DESERT — The big rabbit shoot of the greens of the Shadow Mountain Club Golf Course has been voluntarily ended, the Indio Sheriff's office announced today.

Deputies explained that agile jackrabbits and their mortal enemy the howling coyote dig deep divots in expensive golfing turf, arousing the greenskeepers' ire.

At Shadow Mountain the long-eared threats were met with nocturnal gun hunts.

Both the rabbits and neighboring home owners were disturbed, deputies said.

The moonlight shoot has been ended and the game warden contacted for ideas on a more subtle approach to the problem, officers said.

Satellite Sent To Polar Orbit

VANDENBURG AFB, Calif., (UPI) — A satellite employing a Thor Agena-B booster combination was launched toward polar orbit Monday by the Air Force but details of the shot were kept secret.

The booster combination used in the shot was identical to rockets used in Discoverer launchings.

The Air Force declined to name the satellite and would give no indication whether it attained orbit.

Bob Hope Hurt In Golf Game

Palm Springs' honorary mayor Bob Hope was walking with a limp today as the result of a minor accident that broke up a golf game on the 10th fairway of the Bermuda Dunes Country Club late Monday afternoon.

Word is that hizhonoraryoner had carded a 37 on the front nine before he stepped into a sandy rut and twisted his ankle so painfully he was unable to continue.

Later in the evening a physician who examined Hope's left leg announced hopefully that the injury was only a muscle bruise and X-rays would not be necessary.

Free Time On Air for 48 Politicos

LOS ANGELES (UPI)—Los Angeles and Palm Springs radio stations today offered 48 political candidates free air time during the four weeks preceding the California November election.

Harry Maizlish, owner of KRHM in Los Angeles and KPAL in Palm Springs, said this action was unprecedented in the field of radio.

He said negotiations were completed by a committee made up of Harold Ramser chairman of the United Republican Finance Committee of Los Angeles; Edith Seros of San Francisco, representing the Democratic Party; and Maizlish's son, Joseph, communications director for KRHM.

El Mirador Opens New Wing Sunday

Workmen have put the finishing touches on the new $1,200,000 91-unit poolside addition at Ray Ryan's El Mirador Hotel, making it ready for occupancy this Sunday.

Named the Casa Manana, the contemporary Spanish structure

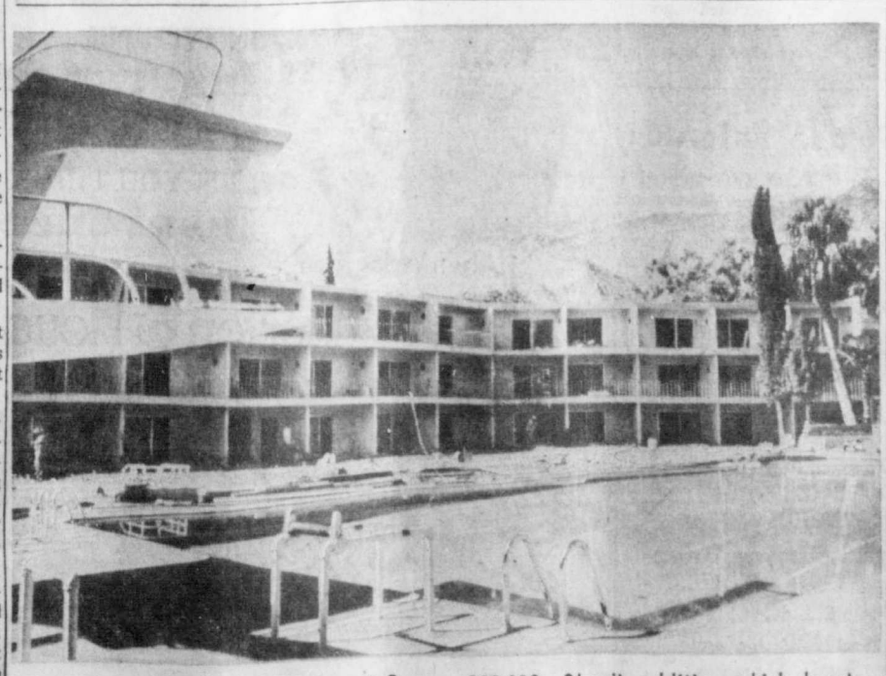
→

dovetails with the original El Mirador buildings and gives the desert spa 300 fully air conditioned rooms.

Building contractors were Ernest Hahn, Inc. and interior decor was created and installed by the Albert Parvin Co. of Los Angeles.

El Mirador owner Ryan will unveil a bronze plaque commemorating the dedication of the new building Monday at 2:30 p.m. Bringing the event a touch of Western flavor, the hotelman will preside over the ceremonies atop a silver caparisoned horse.

Ryan will be joined at the dedicatory rites by his wife Helen, and Mr. and Mrs. Culver Nichols. Mrs. Nichols' father, the late Prescott Thresher Stevens, is honored on the commemorative plaque as founder of the original El Mirador Hotel in 1928.



NEW LOOK for the poolside area at Ray Ryan's El Mirador Hotel is pictured above. It's the new Casa Manana, $1,200,000, 91-unit addition which boasts El Mirador's first Presidential Suite among its luxurious accomodations.

Thursday's Sun To Tell Story Of New College

A special tabloid section featuring the new "College of the Desert" in stories and pictures will be part of the Desert Sun issue Thursday.

The 32-page special section tells the college story from its inception and is complete with pictures showing every phase of the construction.

It also includes background information on the people who created the college with picture stories about the board of trustees, top administrators and faculty.

The college story is told by writers including Peyton Hall who has covered the story from the beginning, with other stories by Lee Christopher, women's editor, and Bob Abbey, sports editor.

FOLLOWING COMPLAINT

They're Going to Clean Up Trash

RIVERSIDE — Investigation of a complaint by the Palm Springs Hotel and Apartment Association of dumping of refuse at a location on Highway 111 north of the Palm Springs city limits has shown the ownership of the site to be by the Coachella Valley County Water District, according to R. C. Smith, land use administrator.

Smith said the water district has been advised of the objectionable use of their property and will have it cleaned up. He said they probably will request the county to post "No Dumping" signs so that the trespassing and misuse of their property will not re-occur.

Sherman Dickinson, president of the association, in making the complaint a month ago, said the dump presents an extremely unattractive sight to visitors coming into or leaving Palm Springs. He urged the board to "investigate, eliminate, prevent recurrence, and prosecute perpetrators."

New York Stocks at Closing

NEW YORK (UPI) — Demand faltered in the face of profit taking today, turning stocks mixed after a higher start.

The utility average remained firm but the rail indicator fell, reflecting declines of around 2 in Kansas City Southern and a point in B&O.

Some of the chemicals turned lower notably Kodak. Autos were soft, paced by Chrysler, and oils eased similarly with Cities Service and Sinclair, ex-dividend, down at least a point. Lukens lost 1⅛, leading most steel into minus territory.

New Contracts

WASHINGTON (UPI) — The Navy announced Wednesday that 69 new ship construction contracts and nine ship conversion jobs will go to private yards during the fiscal year that started July 1.

Only three new construction projects and 22 conversions were listed for government shipyards at New York and Portsmouth, N.H.

Brown, Nixon Indulge In 'Personal' Campaign

United Press International

Gov. Edmund G. Brown and Richard M. Nixon indulged in "person-to-person" contact today in their campaigns for the governorship.

Nixon, the Republican nominee in the November election, also scheduled a 10 a.m. press conference.

Principal functions for Brown were a visit to the Aluminum Company of America plant in Vernon and a speaking engagement at a luncheon of the Highland Park Kiwanis and Optimist clubs.

The visit to the plant included an address before a meeting of Southern California women volunteers.

Nixon's afternoon agenda called for a "person-to-person" visit to factories in Orange county. On the evening schedule was a picnic in San Marino.

Brown topped off his day's schedule with an appearance at a banquet of the California Conference of Judges at the Beverly Hilton Hotel.

Candidates for other offices continued heavy schedules of campaigning.

Among the developments Monday were:

—Sen. Thomas H. Kuchel, R—Calif., told a press conference his Democratic opponent, State Sen. Richard Richards has been guilty of taking "two sides" on key issues.

—A citizens committee for Richards charged that Kuchel is a "phony liberal" and has "misled' some Democratic and liberal voters by presenting a "pro-administration image" of himself.

—State Sen. George Miller, D—Martinez, charged that Nixon has tried "to make it appear that the Democratic party is harboring Communists." Miller had reference to a statement made by Nixon last week to the effect that the Brown administration was "soft" on Communists.

—Nixon made a bid for the collegiate vote and named Randy Siefkin, a student at the University of California at Santa Barbara, as state coordinator of all "Collegians for Nixon" clubs.

—Dr. Max Rafferty, candidate for state superintendent of public instruction, addressed an evening meeting of the Glendale Board of Realtors and called for a return to emphasis on the "Three R's" in the state educational system.

—Rafferty's opponent, Dr. Ralph Richardson spoke to a private gathering of his campaign workers.

Fourth Day Under for 'Oceanauts'

MARSEILLES, France (UPI) — Two French "oceanauts" entered their fourth day on the ocean floor today in a record-breaking week-long endurance test of life under water.

Claude Wesley and Albert Falso were joined briefly Monday by a dentist who was dropped down from the surface to tend to Wesley's toothache.

Today the two sea divers continued work on the "fish farm" which has provided their main occupation during their stay 33 feet down in the Mediterranean Sea.

Wesley and Falso, who are living under pressure twice that felt by ordinary landlubbers, are the key men in Cmdr. Yves Cousteau's closely guarded experiment off the tiny Isle de Pomegue near here.

They have already surpassed the 27-hour high pressure underwater survival record set last week by Belgian diver in Villefranche Bay, near Nice.

Their doctor, Xavier Fructus, said their stay indicates man can live and work successfully on the sea bottom for a month or more.

Each day Wesley and Falso swim out of their undersea home, the Diogenes, through a hole in its bottom and collect fish in nets to put into their undersea cage.

The cage, a few yards from the ballast anchored Diogenes, is part of a series of experiments Cousteau has long had underway to find out how fish really live.

One Thief Was A Strong One

A husky thief, or perhaps a pair of them, made off with an ornamental grille measuring 84 to 20 inches and weighing more than 100 pounds, according to Palm Springs police.

The loss was reported Monday by Harry R. Morrill, who said the grille, valued at $62.50 was taken from his home on Panorama Road some time Sunday night.

Dike for Miami

MIAMI, Fla. (UPI)—U.S. Army Engineers have recommended a three-mile stone and dirt dike across Biscayne Bay as Miami's best protection from hurricanes.

The Army said here the $2.7 million dike would provide a high degree of protection for the thickly populated waterfront but could not stop tidal flooding on the Miami Beach bayfront.

The best reason for working your tail off today is . . . tomorrow!

McDivitt, James A. Lovell, Edward M. White and Thomas P. Stafford; front: Charles Conrad Jr., Frank Borman, Neil A. Armstrong and John W. Young. (UPI Telephoto)

Morgenthau Gets N.Y. Nomination

SYRACUSE, N.Y. (UPI)—Robert M. Morgenthau, 43, was nominated for governor of New York today on the second ballot in one of the most bitter Democratic convention floor fights in the state's political history.

Morgenthau, son of Henry Morgenthau Jr., secretary of the treasury in the Franklin D. Roosevelt administration, only two weeks ago was U.S. attorney for New York's southern district. He was tapped by big city leaders to oppose Republican Gov. Nelson A. Rockefeller this fall.

It will be his first try at an elective office.

Failure of Morgenthau to win on the first roll call came as a surprise to his backers and touched off runaway demonstrations that held up the convention several hours. He polled 563 votes on the first ballot against his closest rival, Dist. Atty. Frank D. O'Connor of Queens, who had 375.

O'Connor received all 119 Queens votes on the first roll call, but lost 50 of them on the second time around. This was the ball game for the anti-Morgenthau forces.

The Democratic nominee reached 620 votes, 50 more than necessary for nomination and the secretary stopped calling the roll.

A motion was made and carried to declare the nomination unanimous, but the motion was greeted by boos.

Population Booms

WASHINGTON (UPI) — The Population Reference Bureau said here that the world's population, estimated at 31.3 billion in mid-year, is growing at its fastest rate in history.

It said only three countries — East Germany, North Viet Nam and Ireland—have lost population in recent years.

PHS Gives Views on Sabin Vaccine Risks

Editor's Note — U. S. comunities are divided on the question of whether to go ahead with polio immunization programs using the Sabin oral vaccine. Here, in question and answer form, are the views of the U.S. Public Health Service.

WASHINGTON (UPI)—What are the risks in taking Sabin oral polio vaccine and are they worth taking? The Public Health Service gives these answers to questions about the vaccine:

Q. Is Sabin live polio vaccine safe or should the American public rely on Salk dead polio vaccine for protection against the disease?

A. Salk vaccine is safe for persons in all age groups. All three types of Sabin vaccine are safe for children and both types I and II are safe for adults.

Q. Does that mean adults should not take Sabin Type III?

A. Surgeon General Luther L. Terry recommendss that adults refrain from taking doses of Sabin Type III, unless they are in an epidemic area or plan to be tourists in a high risk area.

Q. Why is Type III restricted for adults and not for children?

A. The Special Advisory Committee on Poliomyelitis Control reviewed 16 polio cases that followed administration of oral vaccine doses and determined that 11— involving persons aged 16 to 52— had "possible association" to use of Type III Sabin vaccine.

Cases of Coincidence

Q. What about the other five cases?

A. The surgeon general said "it must be recognized that over the course of nine months in the experience of the whole country, during which approximately 40 million doses of oral vaccine have been administered, some purely coincidental cases of poliomyelitis can be expected to have occurred."

Q. Is the PHS blaming Sabin vaccine for any of the cases?

A. The connection has not been proved, if it exists, but the advisers believe "at least some" of the 11 cases were caused by the vaccine because they consider the number too high to label as mere coincidence.

Q. What is the total number of Type III doses administered in the United States?

A. The total for Type III is about 13 million but there is no breakdown by age.

Q. The PHS recommends that children continue taking Sabin oral doses, even Type III, so does this mean there is no risk for children?

A. The risk to children is exceedingly slight or nonexistent.

Some Risk for Adults

Q. What is the risk for adults taking Type III Sabin vaccine?

A. The risk is slightly less than one in a million for all persons but "higher" for adults. But the risk of an adult getting polio without taking Sabin vaccine is less than one in a million—and less than one in two million for persons over age 40.

Q. In other words, adults are safer not taking Sabin Type III than taking it?

A. Yes, unless thay are in a high risk area, such as an epidemic area or visiting in a country where there are more polio cases than in the United States. Under these conditions, an adult would have the percentages with him by taking Type III vaccine.

Q. But the reverse is true for children?

A. Yes. Children are in greater danger of catching polio without Sabin vaccine than they are of possibly catching polio from the dose of Type III.

Asks Information

WASHINGTON (UPI) — Rep. Craig Hosmer, R-Calif., has asked President Kennedy to tell what the United States has learned about the latest Soviet nuclear tests.

Hosmer, a member of the Congressional Atomic Committee, said here that Kennedy should give a "full and complete disclosure" of information on the Russian tests in order to prove that "concessions" made to the Soviet Union at the Geneva test ban talks were safe.

My greatest inspiration is a challenge to attempt the impossible.
—ALbert A. Michelson

Steelworkers Union Gets Down to Business on Jobs

MIAMI BEACH (UPI) — The steelworkers union, its convention preliminaries over, got down to business today on proposals to combat unemployment and bolster the U.S. economy.

David McDonald, president of the United Steelworkers of America (USW), AFL-CIO, said Monday the union was seeking a 32-hour work week and extended vacations.

On the agenda of the union convention later today were speeches by Vice President Lyndon B. Johnson; T. C. Douglas, national leader of the New Democratic Party of Canada; and Pulitzer Prize-Winning author James A. Michener, who is running for Congress from Pennsylvania's Eighth District.

McDonald, in his keynote address to the more than 3,000 delegates in the Miami Beach Convention Hall, outlined general proposal to combat unemployment, including shorter hours and longer vacations.

The silver-haired union leader said that only 900,000 of the union's 1,250,000 members are employed full-time, and that in the next decade 26 million persons will join the work force in this country alone.

"We know that the jobs of America and Canada lie in the business community. This is where the jobs must be found. I urge here today that American and Canadian business take over their social obligations," McDonald said.

He said only "bold thinking" by business leaders could solve the unemployment problem.

DHS Chamber Will Reopen

DESERT HOT SPRINGS — The chamber of commerce here, closed during the summer for lack of funds, is to be reopened, according to Al Horton, president.

Horton said volunteers have been recruited to staff the office daily from 10 a.m. to 5 p.m. except for Sundays and Mondays.

Center Entered

Loss of $28.40 was reported to Palm Springs Police Monday in a burglary report filed by Merrill F. Raber, who said the Warner Guidance Center office had been entered through a rear window.

Pile of Manure Blamed for Flies

RIVERSIDE — Cemetery operations and not the county's operation of its sanitation pit were blamed Monday by Lloyd E. Irons, chief of the division of sanitation, for the reported fly menace at Desert Memorial Park.

Reporting on an investigation of conditions at the cemetery at Palm Springs, Irons observed that the dump is more than one mile from the cemetery and the prevailing wind is from the cemetery towards the dump and not from the dump towards the cemetery.

Irons said the dump is under constant control and observation and the garbage is promptly covered. He did admit that some flies might be carried on vehicles going to the dump and that this might be causing some of the nuisance, but concluded that the excessive moisture from constant watering of the cemetery lawn, stockpiling of manure for the lawn "and other factors within cemetery environment" is the real cause of the influx of flies.

The investigation was ordered by the board three weeks ago following a complaint by a Palm Springs attorney in behalf of the Palm Springs cemetery district.

The supervisors ordered Iron's report sent to the cemetery's attorney.

Steinberg's Farmers in E. Germany

BERLIN (UPI)—A group of Southern California farmers today took a hard look at farming conditions in East Germany through the eyes of West German agricultural experts.

First item on today's schedule for the Californians was a briefing on the present economic problems facing farmers on the eastern side of the Berlin wall by officials of the West German Ministry of Food and Agriculture.

The farmers arrived in this isolated city Monday by plane from Warsaw.

The Californians, on a "Person-to-Person" tour of several European nations, arrived in Berlin several hours behind schedule because their Russian-built airliner developed hydraulic system trouble shortly after takeoff from the Polish capital and had to return for repairs.

Following today's briefing, the farmers were scheduled to tour West Berlin followed by lunch at the Radio Tower which provides a panoramic view of the divided city.

On tap for tonight was a dinner with U.S. Mission officials.

NDAY PROGRAM

Students Hear College Heads

M DESERT — The College Desert will open Friday he highest percentage of octorates of any junior col- the state, students learned .

students learned about the academic calibre during a pre-registration briefing elcoming program, which d talks by Don H. Mitchell, president of the board of trustees, and Dr. Roy C. McCall, college president.

Dr. McCall

Dr. McCall advised the enrolling students — who will begin classes Friday — that the college has "a better trained faculty (almost half with doctorates) than any junior college in the state."

The faculty is combined with a solid curriculum offering "a rounded program in academic preparation for advanced study, occupational training, and general education," McCall explained.

Student body acitvities "with emphasis on the responsibilities of good citizenship in school and in the community" will welcome the enrolling students who will launch Coachella Valley's first college, the school chief announced.

Board President

The students, on campus as part of a week-long orientation and counseling program, were assured by McCall that each student "will be treated as an individual."

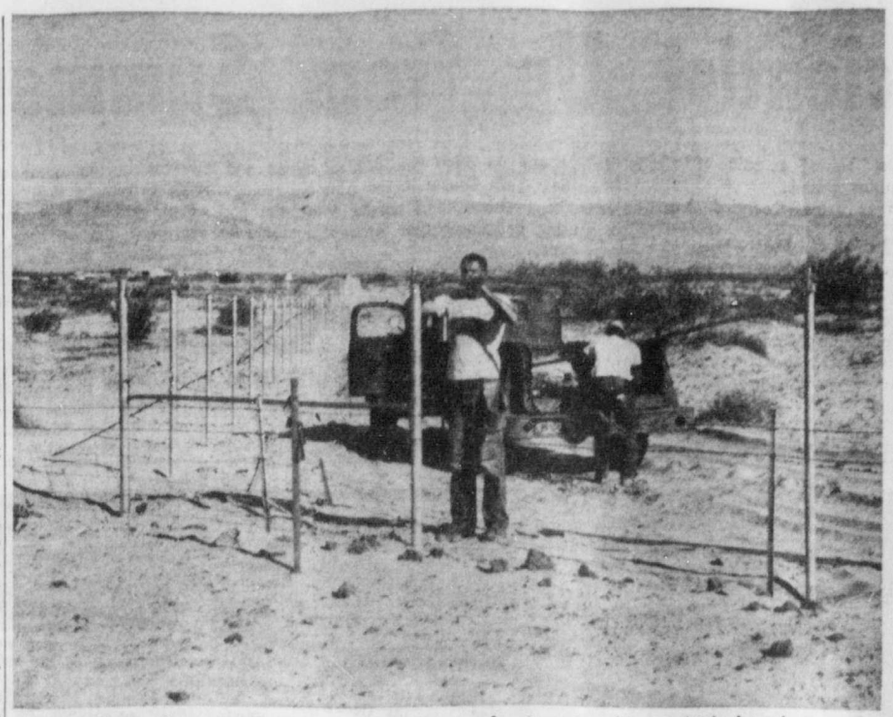
Board President Mitchell emphasized the need for academic excellence. "College students today must have the spark to succeed," he said, pointing up his statements that "the Ivy League schools back east have an old-time tradition—but we in the West are making our own tradition—and we are charged with making a good one."

The Motto

"Let this be your motto — expect the best and make the best come true," Mitchell concluded.

The students met Palm Springs board representatives Mrs. Helen Staley, and Mrs. McCall. The meeting of board, faculty, and students was oponed in the school dining hall by Dr. George Goodwin, a counselor and instructor.

The orientation activities continued during the noon hour with no-host luncheon in the cafeteria. At 1:15 p.m., Dr. Edwin Ingles, dean of instruction, introduced all faculty members to the assembled students.



THE CORNER of a new woven wire fence is installed at Palm Springs Airport, B. C. Gilbert, member of a 12-man crew of Cyclone Fence Co., division of U. S. Steel, fits top section of fence in preparation of wire stretching which has been proceeding at the rate of 3,000 feet per day to enclose the spa facility. (Desert Sun Photo)

lm Desert hamber in port Meet

M DESERT — The Palm Chamber of Commerce of directors met in the of- president Dick Kite today. r a report from Kite and ranklin president of screen- nmittee for managerial ap- .

board heard the qualifica- of two applicants selected a field of eight by the ng committee. The board it- ll interview acting volunteer r Charles Tomlinson early eek, when he returns from weeks coastal vacation. uently, active candidates pected to be personally in- ed by the board, Kite an- d. The manager will be y Oct. 1, he added.

reported that $927.50 in ad- due remittances have been d by the chamber. The , representing payments by mber members, is "enough the board operating funds, enough to impinge on next finances," Kite told The Sun.

rything is in very good Kite said. He announced e special events committee by Franklin has set a goal 00 to be raised for the er in fall activities.

Realtors to Hear Speech On Saund

PALM DESERT — Dominic Tavaglione will speak for Rep. D.S. Saund, before a joint breakfast meeting of the Palm Desert Board of Realtors and the Coachella Valley Board of Realtors here Thursday.

The joint meeting, one of a series featuring political candidates and discussion of issues, will be held at 8 a.m. in Firecliff Sans Soucci, Dick Coffin, Palm Desert president, announced.

Saund, seeking reelection to the 38th Congressional district post, faces Republican candidate C. Minor "Pat" Martin, Riverside attorney.

The incumbent's candidacy has been marked this year by his inability to return to California to campaign in person. The Indian-born Congressman, a former college mathematics expert, has been confined to Bethesda Naval Hospital since early summer with an apparent arterial occlusion in the brain, commonly known as a stroke.

PALM DESERT

Local Art Colony Returning to Desert

By THIRZA SCHENK

PALM DESERT — Many members of Palm Desert's group of artists, teachers and patrons of the arts are returning to the desert to find an exciting series of events on the agenda of the Shadow Mountain Palette Club.

Luncheons on the fourth Wednesday of each month at the club will feature demonstrations and talks by well-known artists and teachers, as well as poolside painting parties, which proved a popular attraction at the club last season.

Field trips to scenic spots in the desert, as well as to nearby mountain areas are planned, and for those who want to try their talent with seascapes, there will be trips to the Salton Sea.

President Irene Fenton, artist and teacher, at home in Palm Desert most of the summer has been busy applying some of the techniques and skills acquired last year in her European studies, as well as teaching this summer.

Lucille Bertrand has several canvasses ready for the exhibits which are on display throughout the season at the Shadow Mountain Club, and at places of business in the area.

Paula Munson, curator of the art gallery at the Desert Magazine has returned with many interesting examples of her imaginative "sculpting" in driftwood.

Dorothy Lingo arrived from Alaska to join sister Helen Monsen and reports that husband George has been painting on his favorite subject, Mt. McKinley, and will be here soon.

Dorothy Dietz has returned with sketches of Portugal and Majorca, while Gertrude Horner took her sketch pad to South America.

Harriet Clandening is looking forward to moving to her new studio after spending the summer in Hollywood. Harriet does the reservations for the group.

The opening luncheon is scheduled for Wednesday, Oct. 24, at 12 noon at the Shadow Mountain Club.

"Aggie" Langton is thrilled over getting her "wings," and there's a cute story about how this happened.

A couple of years ago, Aggie's two boys, then 15 and 13 announced they had decided to take flying lessons. "Aggie" went straight in the air (without benefit of wings!) and informed them they were much too young. However, dad intervened and persuaded mom they should give it a try, pointing out the fact that the boys were earning the money themselves.

After a few lessons at the Palm Springs Flight School, Gary came home and informed his mother that he had made an appointment for her to take a lesson. This was just too much for Aggie, who announced that she was not going! Again, with some support from Dad, Aggie very reluctantly took the first lesson, and you know the rest!

Two interesting coincidences were that she soloed on Gary's 17th birthday, and got her wings on Larry's 15th birthday.

Another interesting item brought out in the conversation, is that Aggie (then Aggie Lenert, living in Chino and attending Chaffee Junior College) was a Southern Tennis Champion.

Lamp Display in Morongo Library

MORONGO — Held over by popular demand at the Morongo Valley Branch of the San Bernardino County Library will be the exquisite collection of 42 miniature oil lamps displayed by Mrs. Ethel Hofstetter of Morongo Valley.

Victim of Heat Now Said in Good Condition

Joseph Ippollito, 57, was reported in "good" condition this morning by Desert Hospital officials following admittance yesterday as a heat prostration victim.

Ippollito was working at a private home at 680 Williams Road yesterday when he collapsed from the heat according to a Palm Springs Police report.

The victim was rushed to the hospital where he was held for a check-up although he regained consciousness before reaching the hospital.

Advisory Group Meet Set Monday

LA QUINTA — A review of the controversial Thermal Airport will feature the first fall meeting of the Coachella Valley Advisory Planning Committee Monday, Milton A. Hoffman, president, announced today.

The meeting, slated for 7 p.m. in Laurye's Steak Ranch Palm Springs, will be addressed by Reg. Schmitz, Riverside county airport director. Schmitz will outline the recommendations of Clinton Engineers, a consulting firm which called for a big jet airport near Mecca, six miles south of the Thermal county airport. The firm has deemed the Thermal location too close to dense population and planned industrial developments to be a feasible long-range location, reports indicate. Area representatives have previously called for new development at Thermal.

County Supervisor George Berkey, Palm Springs, will attend the meeting with Coachella Valley county planning commission members Kay Olesen, Palm Desert, and Paul Jenkins, Indio.

Dudley Steele, Palm Desert resident and chairman of the Riverside County Airport Commission, is scheduled to attend the meeting, with possible comments during it. Walter Wright, Indio chairman of the Coachella Valley Economic Development Committee, is also slated to attend the session, Hoffman said.

Voters' Verdict On Teddy Today

BOSTON (UPI) — The voters bring in the verdict today on whether 30-year-old Edward M. Kennedy is too young and inexperienced to sit in the United States Senate. He is a slight favorite to win the Democratic senatorial nomination over Edward J. McCormack, 39, nephew of House Speaker John McCormack.

Despite a prediction of showers early in the day, a record primary vote of more than 1 million is expected. The Teddy - Eddie contest, featuring two television debates, is stirring the voters out of their living rooms and off their front porches. It has almost submerged the fact that the Republicans, too, are choosing a senatorial candidate today.

George Cabot Lodge, 35, and almost a dead ringer for his father, Henry Cabot Lodge, is running against Laurence Curtis, a 69-year-old congressman. Lodge is the favorite, partly because he has a movie star appeal to the female voters.

Meet In November

The winners of these two contests will meet in the November congressional election to determine who serves the two years until 1964. The Senate vacancy occurred when John F. Kennedy resigned after being elected president.

Neither Teddy nor Eddie is claiming a landslide, but some experts are predicting a massive wave of independent voters will put the President's youngest brother across easily. The Kennedy name is an authentic vote catcher in Massachusetts and Teddy has a group of professionals around him who know how to squeeze the last possible vote out of the situation.

Safety Council Luncheon Meet Set on Friday

The Palm Springs Safety Council will launch its fall activities Friday with a luncheon meeting in Lindy Lou's Pancake House, Mrs. Mary Jones, secretary, announced.

John Sanborn, council president, will lead a program formulation session for the new season, Mrs. Hill said. The meeting will feature participation by presentatives from three school parent's groups. Slated to attend are Mrs. Pat Barton, representative of Cahuilla School and Nellie N. Coffman Junior High School, and Mrs. Elaine Rosenberg or her alternate Cielo Vista School.

PHS Grants

WASHINGTON (UPI) — The Public Health Service today announced it had awarded 2,477 research grants and 197 fellowships totaling $59,908,926 in August.

igel View Foundation's ection Slate on Nov. 6

ERT HOT SPRINGS — An- ew Crippled Children's Foun- s annual election is sched- Nov. 6, at 7 p.m., at the Street Community Center, sident, Sam Benton an- d today.

minating committee will be ted by the board at a spe- eeting within the next two Nominations may also be from the floor on the night election.

idates are elected by mem- f the foundation's four fund- auxiliaries and contribu- the organization.

bers whose three-year terms in November are Sam Ben- president; Maurice Ryan; Robert Bieghler; Walter Klocke, chairman of the board; and John Seaman.

Other members of the 15-man board are Aaron L. Eaton, Mrs. Nat Bertram, Mrs. Richard Bagdasarian, Mrs. R. Torrey Spannagel, Guy Steele, A.B. Scott, Charles Eliot and George Scott.

A vacancy created by the recent resignation of member John Mack will be filled by appointment, Benton said.

ymond Magee eral Rites Glendale

ral services for Raymond gee, 69, of 37-841 Palo Verde, held from the Little Church Flowers, Glendale, today. was a Los Angeles business

ative of San Francisco, he ade his home in Palm s for many years.

Magee, who died Friday at Monica hospital after a illness, is survived by his Snowdie B.; three sons, the Raymond J. Magee East eadow, Mass., Jack A. Ma- an Nuys, Paul H. Magee, ngeles; and two daughters, Virginia Erler and Mrs. Pike, both of San Marino. sister, one brother and 18 hildren, also survive.

ment was in Forest Lawn rial Park.

'MINORS FOR MARTIN,' volunteer workers for Pat Martin, GOP hopeful for the 38th District congressional post, are materializing in all age groups, as witness the recent organization of an enthusiastic group of young students. Pictured above is Dallas Holmes of recent Pomona College TV fame, who serves as advisor for the group, as he discussed campaign plans with three of the youngsters in their nifty uniforms, and Diana Wheelis, president of Riverside's Teen-Age Republican Club (TARS). In the sprightly Martin costumes, from left, are Shirley Leonard, Sande Galford and Nina Burns.

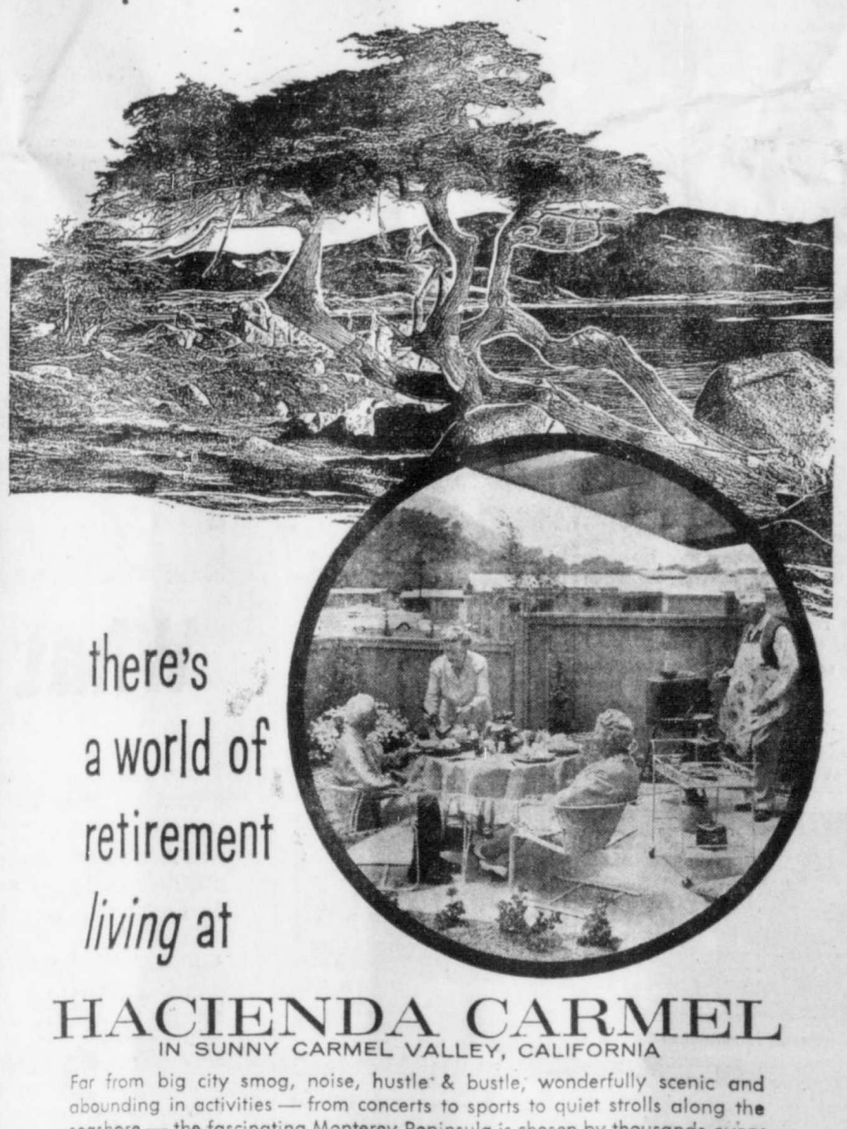
Retire in a mild, healthy climate...



there's a world of retirement *living* at

HACIENDA CARMEL
IN SUNNY CARMEL VALLEY, CALIFORNIA

Far from big city smog, noise, hustle & bustle, wonderfully scenic and abounding in activities — from concerts to sports to quiet strolls along the seashore — the fascinating Monterey Peninsula is chosen by thousands every year as their ideal vacation area. Small wonder, then, it was selected as the site for one of the country's finest retirement communities . . . Hacienda Carmel . . . designed exclusively for retired and semi-retired people age 55 and over (in the case of couples, only one partner must meet age requirement). Now **available for immediate occupancy** are modern, spacious garden apartments in a community complete with every convenience. New **condominium** principle of ownership provides **insured title** to residence! And a realistic monthly maintenance fee includes all upkeep of grounds, maintenance of facilities, utilities, local telephone, taxes, **even group medical and hospital insurance regardless of age.** If you like, we can arrange for moving your household goods at normal rates. Also, if you wish, our licensed real estate broker will handle the sale of your present home at the customary fee. Prices from $11,700 to $21,000 (Financing available).

VISIT OUR FURNISHED GARDEN APARTMENTS OPEN DAILY FROM 10 AM

Highway No. 1 to Carmel Valley Road. Turn east 2 miles.

One of America's most beautiful *PRIVATELY FINANCED* retirement communities!

THE TALL ONE is the winner, winner of a $500 scholarship, and he is Michael Cohen, son of Mr. and Mrs. Pat Cohen of Palm Springs. Michael receives the award from W. E. Moats, sales representative of the contest-sponsoring Western Tablet and Stationery Corp. Michael's was one of five third prizes in the 2,500-prize, $64,444.44 Hy-Tone writing contest on 'Why I Want to Go to College.' On Moats' left, Dr. Austin Sellery, superintendent of the Palm Springs Unified School District, receives a $100 award for this district, a prize attendant to Cohen's win.

French Scientist Up from Summer Underground

NICE, France (UPI) — A young French scientist, who spent the summer underground studying a prehistoric glacier, emerged into daylight today for the first time since July 16.

"Oh, but it's good to feel the sky," said Michel Siffre, 23, and then: "My eyes. . ."

Mountain police put a canvas hood over Siffre's head. Simple daylight was too much for him, even behind a pair of almost opaque glasses.

Two friends carried him on their backs up from the 426-foot deep Scarasson Chasm in the Alps near the Franco-Italian border to a waiting helicopter that brought him here.

Siffre was to be flown this afternoon to Paris to enter a hospital for several days of medical observation.

His stay underground, in bitter cold, almost total darkness and harrowing loneliness is the longest on record.

Siffre, who explores and studies caves and caverns in the name of geology, was extremely weak at the end of his ordeal. But a doctor who examined him on the spot said that otherwise his condition was satisfactory.

He said Siffre's extremities were "extremely cold" and noted an appreciable drop in his blood pressure.

"It was lonely down there," Siffre told newsmen waiting at the top. "I cried. Sometimes I wept uncontrollably."

Siffre lived his 62 days on the glacier in a tent with no means of telling time and only a field telephone for company. When told last Saturday that it was Sept. 15, Siffre registered astonishment. He thought it was Aug. 28.

Siffre discovered the glacier, now believed part of the biggest subterranean water system in the world, on an expedition into the chasm in the summer of 1961.

Hit U.S. Policies

LONDON (UPI) — More than 3,000 marchers protesting U.S. policies tied up traffic in central London for 20 minutes Sunday.

They carried signs saying "No war over Britain," "Hands off Cuba," "Ban the bomb," "Ban the U2 flights," and "We don't want German troops here.'

Study in Russia

MOSCOW (UPI)—More than 700 young Cubans arrived Sunday in Odessa to study in the Soviet Union, Moscow Radio reported.

Leaves for Russia

NEW YORK (UPI) — Foy D. Kohler, the new U.S. ambassador to Moscow, departed for his post Thursday night aboard the liner France. He was accompanied by his wife, Phyllis.

Only Survivor

Four-year-old Judy Barth of Midvale clung tightly to her teddy bear, a remnant of a part of her life that ended violently with an auto crash today. Her parents died in the collision, along with another motorist. Judy, asleep in the back seat, was the only survivor. Her lip was cut.

THOUSAND PALMS

Local Gourmets Will Get Treat Saturday

BEATRICE EAVES

THOUSAND PALMS — A big treat is on order for local gourmets this Saturday evening from 6 to 7:30 p.m. at Thousand Palms Community Church. Members of the Sunday School teaching staff will serve the following menu:

An eight-ounce ribeye steak, charcoal-broiled, one big baked potato, green salad, French bread garlic-buttered, jello or chocolate pudding, tea or coffee, all for a small donation to be used for replenishing the Vacation Bible School fund. If the weather is pleasant, the dinner will be served out of doors. John Papp will be the chef. Everyone is invited.

Despite the continued warm weather, lights are now twinkling from a number of Shangri-La Palms home that have been dark all summer. Some families recently returned are the Dewey Wallace family who, with daughter Joan, took their camper on a wide trip from Seattle to the Atlantic seaboard; Mr. and Mrs. Leslie Thomas from the Monterey Peninsula and Sunset Beach; Mrs. A. E. Nelson and daughter, Elizabeth, who were in the Los Angeles area much of the summer but ranged as far north as Oakland before returning in time for Elizabeth to take up her duties as a teacher in the eighth grade at Coachella.

Mrs. Beatrice Eaves is spending the month in Detroit, Mich., visiting her children and grandchildren.

Mrs. Cloe Vocus leaves Saturday for two weeks with her children at Oxnard.

Mrs. Elva Woodside has left for Los Angeles for a three-week stay at the home of her sister-in-law, Mrs. Bessie Groom.

Miss Joan Wallace has begun her work on a new job, teaching second-grade at Chula Vista. Joan was formerly on the Riverside teaching staff.

Thousand Palms Democratic Club will hold its first meeting of the season next Tuesday evening at 7 o'clock at the home of President Harland Mangold.

One More Club Added At PS High

Another student club has been given the stamp of approval by the board of Trustees of the Palm Springs Unified School District.

The "Future Faculty Club" which is a group sponsored by the local Teachers' Association, has state-wide aegis of the California Educator Club complete with constitution, according to a report by Austin Sellery, district superintendent.

In recommending board approval of the new club, Sellery said it "is one of the most productive types of student groups we have. It's an aid to teachers in instructional help from students, it's stimulating to teachers and enlightening to students," he added.

Die in Avalanche

INNSBRUCK, Austria (UPI)—Three Alpine policemen were reported killed Thursday when falling ice buried a patrol at 7,545 feet in the Oetztal range.

FALCON SQUIRE station wagon for 1963, one of Ford's five models of compact wagons, is shown above. The Falcon Squire, a four-door, six-passenger station wagon, is a deluxe model with all the basic advantages of Falcon economy and maneuverability. This view shows off some of the all-around styling refinements incorporated into the Falcon line of sedans and wagons for 1963. A new grille carries out the forward-thrusting, 'blunted-spear' effect evident in the front-end profile. The simulated hood air-scoop is retained, and block 'Ford' letters are placed on the leading edge of the hood. Low-slung and spirited, Ford's all-new compact Falcon Futura convertible (below) leads off Detroit's 1963 parade of new car models. Designed with a sports car flair, the car offers luxury car interior appointments, an electrically operated power top and a complete range of performance options. Wire wheel covers, bucket seats and a floor mounted, 4-speed transmission are a few of the many options available. These two models, along with Falcon's full line of 17 models, will be introduced in dealer showrooms Friday, Sept. 28.

What if *your* children were only survivors?

There are so many ways it could have happened—a plane wreck, a fire, a boat accident. But Judy's parents were killed in an auto crash. "It was the other guy's fault"—but that didn't make any difference to Judy. She was suddenly alone, as alone as a child can be. Who would buy those pretty dresses for her now? Who would finance her college education? And your children: How have you prepared for them?

A NEW PLAN OF PROTECTION

Relatives, charity, government relief agencies helped Judy. But you can provide your children with their own money to live on, to grow on, by joining a new plan now offered by the Fireman's Fund Insurance Companies—one of the nation's oldest, largest insurance groups. **THE PLAN:** Orphans' Security Fund. **THE PROTECTION:** $100,000 in cash to your surviving minor children should both parents meet accidental death together, or in separate accidents occurring within 24 hours. The full $100,000 would be paid if death occurs within 120 days after the accident. All types of accidental deaths are covered, even deaths from air accidents, as long as neither parent is pilot or crew-member of the aircraft in flight at the time of the accident. Naturally, deaths resulting from acts of war or suicide are not covered. **THE COST:** $10 a year.

ONE POLICY COVERS ALL YOUR CHILDREN

The $100,000—which would have the same tax advantages as life insurance—would be distributed equally among all your minor, dependent children. An only child would receive the entire amount. Fireman's Fund would even pay an extra $1,000 to find any eligible children who might be missing. The $100,000 would be paid in addition to any other estate or insurance benefits your children might receive. The only limitation is one Orphans' Security Fund policy per family. (Policy reference A&H 274.)

ENROLL NOW—BEFORE THE CLOSING DATE

You can give your children this unique protection by mailing the coupon with your check for $10, payable to Fireman's Fund. Send it to the address below—but do it now—before the closing date. You will receive your policy by mail, but please allow four weeks for delivery. Your policy will be serviced by one of the independent agents participating in this program. You may also enroll by giving your coupon with $10 to any agent of the Fireman's Fund Insurance Companies or any licensed insurance broker.

MONEY-BACK GUARANTEE

Standing behind your policy are the Fireman's Fund Insurance Companies with assets exceeding half-a-billion dollars, and represented by 16,500 agents coast-to-coast. You'll find your policy easy to understand. If you are not completely satisfied, return it within 10 days and your $10 will be refunded. We believe, however, you'll agree that $10 a year is a small price to pay for this important protection for your children.

Pitch In, Pick Up, Paint Up and Plant

It's just about that time of year again – and company is coming.

Word that company is coming would send any scrupulous housewife in a dither of excitement to the vacuum cleaner, the broom, the dust cloth, to have the home spotless when they arrived.

It should have the same effect on a community, or community of communities, such as ours.

And we are going to have company, in large numbers and soon according to all indications and surveys. They are coming in droves and it's high time that we got busy preparing for them.

First impressions are generally lasting ones and the first impressions our company will have of us is when they arrive along the streets of the Desert Empire.

Desert Beautiful committee of which Mrs. Clifford W. Henderson is head was organized last year and has already accomplished much in coordination of efforts of the communities in the Desert Empire to make our famed resort area more attractive and in keeping it that way.

The organization's motto is Pick - Up, Paint-Up and Plant and sub-committees have been organized and are active in the various communities of the area to spur this campaign to a success.

We can all help in this but most important, we can all help in keeping our famed desert area neat and clean after the initial major effort.

Litter cans have been provided in various convenient locations and it would be a smart move to get into the habit of making use of them right now. Plans are being made for the distribution of litter bags to be carried in the automobile.

These litter cans are exclusively for litter which now too often is carelessly tossed out to the roadside despite the fact that the state and most communities have strict laws against this practice and many communities have posted rewards for the conviction of careless litterbugs.

Sheriff Joe Rice has assured the Desert Beautiful committee that he will make an effort to assist in the fall campaign with work details ridding the roadside of the many cans and bottles tossed there by the unthinking.

The work of the Desert Beautiful committee is an important one; it fulfills a vital need here.

Our desert is famed for its many attractions and is luring more and more visitors.

Millions have been spent on construction and landscaping at country clubs and private homes.

But dilapidated structures on the outskirts, cans and bottles littering the shoulders of the roads, desert bushes festooned with cleaning tissue, certainly ruin the effect.

It won't be long now. Company is coming and it is time to get busy to give them a spic and span welcome.

The Desert Beautiful committee, dedicated as it is to making our area attractive and beautiful, cannot do it all.

It deserves the fullest support of every desert resident who takes pride in his chosen home area – and they all should.

Keeping the desert clean and beautiful is the responsibility of every one of us who lives here.

Pitch in, pick up, paint up and plant.

Business-Like Accounting Could Do It

In the television address to the nation in which he discussed the state of the economy, President Kennedy said: "I am urging the Congress . . . to end the postal deficit of $600 million a year."

All of us can agree with that purpose. But the rub comes in how to do it.

The bill now before Congress, which has passed the House but so far has not been given Senate consideration, contains provisions which almost all authorities regard as destructive in the extreme. For one thing, the mail rate increases proposed for the nation's smaller publications – newspapers and magazines – would in many cases be almost literally insupportable. Example: The rate increase on a country weekly newspaper mailed to a subscriber a few miles away would be as great as on a huge New York daily going across the continent. The magazine business is deep in the doldrums now, and the proposed increases in rates would actually, in a number of instances, be greater than profits.

Ever since the post office was founded its basic services – carrying of mails and publications – have been regarded as an essential contribution to public education, enlightenment and entertainment. They are thus a legitimate governmental expenditure, and they should not necessarily be required to pay their way in entirety.

But that is not true of purely commercial services, of relatively recent origin. Parcel post – that chronic breeder of heavy deficits – is the prime example here. There is every justification for increases in parcel post charges that will make the income at least equal the outgo, on a basis of complete business-like accounting.

HOLMES ALEXANDER:

A Study in Black and White

WASHINGTON, D.C. — That loud intellectualist explosion to be heard the third week of September will be Allen Drury's forthcoming book, "A Shade of Difference," which hits the Negro problem as it has never been hit before in polite political literature.

It may not be coincidental that, at publication date, Drury will be in Europe, from where he can pleasurably listen at a distance to the exploding corpuscles of the Liberal reviewers or can savour the hypocrisy of those who write around the outside of the circle and call attention only to the didactic message of his book.

For it is a two-tone work. One "shade" is heavily Negroid, his villain being a six-foot-seven African demagogue, lecher and as downright a rascal as was ever created in print, the other "shade" being a highly moral and evangelical appeal that the "quarrelsome sort" of Mankind stop hating and begin loving one another lest all of us perish.

Creative Novelist

I do not discount this religious theme and used it in a previous column because it is the spire of meaning that stands atop this tremendously moving and realistic work. One hesitates to praise Drury as a major creative novelist. His characters are apt to be types rather than personalities. His human relations with the tossed-in sex scenes and family groupings would fall flat if this were only a book about people. But as a political historian of our times, Drury makes monkeys and midgets of other journalists, writing on these themes today. If his men and women are skin deep, that does not matter very much because they are costume characters striding the stage and quickening the drama of the Cold War so that the reader sees, feels and comprehends this titanic struggle in a thrilling participation that is nowhere else available.

The plot and the action of this book, apart from the sermon it preaches, have to do with the racial clash of Black vs. White. It is a global collision of which we are all aware. It reverberates from the United Nations where the Anglo-American powers of Britain and the United States, which have ruled the world not badly for several centuries, meet head-on with the new African nations which are drunk with the fire-water of their new independence. It reverberates, too, in the U.S. Senate and the Southern States where "white supremacy" is something that the masters of the world are not ashamed to acknowledge and which they defend against barbarian onslaught and intellectualist fanaticism.

Drury is an heroic literary reporter in that he scorns the conventional cowardice of sentimentalizing the Negro as the noble underdog of our world-wide social upheaval. His character-in-chief is "Terrible Terry," the M'Bulu of Mbuele, a black monster with six wives but hot after other men's wives. His native country is Gorotoland, which still practices cannibalism and other revolting tribal rites and comes now to the UN seeking independence from the British Commonwealth.

Villain of the Piece

Terrible Terry, in his gleaming robes, uses racial blackmail to get himself entertained at the White House, incites a riot by melodramatically leading a whimpering colored child into a segregated school at Charleston, South Carolina, precipitates a UN motion of censure against the United States and puts the American Congress in the mortifying position of feeling that it must "buy friendship" from Gorotoland (and all of Black Africa) by a hastily-drawn foreign aid bill.

This kind of material in lesser hands than Drury's would read like some of the speeches we will hear during September in the House and Senate on Foreign Aid appropriations and the UN Bond issue. But this astonishing author, an American and a white man, actually takes sides with America and the white race. In a scene not equalled in lacrimose histronics since the death of Little Nell, Drury has told Seabright B. Cooley of South Carolina, one of his favorite Senators from "Advise and Consent," die at night on a grassy plot of Capitol Hill, overlooking the beautiful city and southward across Virginia, after an eight-hour filibuster to prevent America from groveling before her enemies and tormentors. But the very overwriting of the scene bespeaks a patriotic and knowing heart.

Good Guy Character

Playing opposite Terrible Terry is the American Negro, Congressman Cullee Hamilton, a "Good Guy" character who loves his country and believes in her mission of evolutionary racial adjustment.

THIS SIDE Of The Sun

R. F. "Phat" GRAETTINGER

It could be a hint
To tell me the score,
This woman who wrote
Of the race track bore

One of my ballpoint pals squandered four cents the other day to comment on the whole truth of an article she had just read and was passing it on to me. It was about a man who talked horses all of the time—a race track bore, she called him.

SHE WROTE that this bum monopolized the conversation whenever enough people gathered to constitute an audience.

"Us ladies just don't get a chance to hash over the latest scandal and the men can't cuss the Rams. All we hear is:

" 'And he win in the drive and I collects 20 bucks.'

"And he's even too tight to put a nickel in the office pool. It's all in his mind," she concluded.

WELL, DON'T LOOK at me, lady. I never talk about how much I bet. Oh, I may occasionally discuss a minor $2 investment made in the hope of realizing a capital gain. But I never bet. That would be gambling which is evil, so I am told.

I never talk about my winnings either. I didn't say a word about Big San Jac, did I? At 74 to 1, yet!

OR ABOUT a munificent daily double because the mutuel clerk was hard of hearing. When I asked for 7-11, a combination which I figured was a cinch to win, he gave me 11-11 which did win. I didn't notice his mistake either until I was about to tear up the ticket. I was lucky. I looked first.

Besides, it would be the height of recklessness and also foolhardy to brag like that. The Internal Revenue Service gentlemen have ears, you know.

BUT I'LL GO along with you, lady, on that bore business.

There's no bigger annoyance than the guy you mention.

The pest makes me mad, too. He talks all of the time about how good he is.

Never gives me a chance to slip in a word on how good I am. Yes, ma'am, he and his kind should be obliterated.

WRITING about race tracks and other sports, too, reminds me — did you ever forget where you parked your car at some big event?

And wandered aimlessly among thousands of parked cars looking? Your wife goes one way to look and you go the other. When you finally find the car, you can't find your wife.

Aggravating, isn't it?

WELL, they've got that licked. An inspired thinker who probably had lost his car several times, figured out a little triangular weather - proof car identifyer, made of aluminum.

You stick it on the aerial post of your car and it looms high. It comes in different colors and your initial is on it.

You can't miss — only some other jerk may have picked the same color and his initial might be G, too.

Then you start looking again.

ABIGAIL VAN BUREN:

Dear Abby . . .

DEAR ABBY: In the winter of '58 you had something in your column about children from broken homes "thrown to the winds to grow like weeds," but who managed to do more with their lives than some children of today who have all the advantages. There was so much truth in it that our minister read it from the pulpit and built his sermon around it. Would you please do your readers a favor and repeat it?

FAITHFUL ABBY FAN

DEAR FAN: Here it is:

DEAR ABBY: In my lifetime I have seen children from broken homes thrown to the winds to grow like weeds, with no supervision, no up-bringing and none of the advantages. Still they manage to make something of themselves. My husband was a man like that. Our son was given all the advantages his father never had. Given all the love and attention and material things a child could ask for, yet he turned out so bad that I am ashamed to claim him as our son. Why, Abby, why?

BROKEN-HEARTED MOTHER

DEAR MOTHER: Your son was denied the very things that make a man out of a boy. Hard work, self-discipline, and the satisfaction of making it on his own. The biggest favor parents can do their children is to let them struggle a little. Sorry.

DEAR ABBY: Don't people realize that if a man wanted a wife he'd find himself one? — am a bachelor (age 46) for the simple reason that I want to be. All my friends and relatives pester me with "girls" I ought to meet. Every time I am invited to someone's home for dinner they have a "girl" there for me to look over. This is getting tiresome. Please print this. Some of my friends might take the hint.

SINGLE AND HAPPY

DEAR SINGLE: Your friends mean well. Don't be a schnook. It doesn't cost anything to look.

DEAR ABBY: Can you tell me what a REAL mother is? I married a divorced man with three children. Their "real" mother had run off with another man when the oldest child was 5. They are in their teens now and I am sick of hearing how sad it is that their "real" mother can't enjoy seeing them accept the honors and awards they earned.

STEPMOTHER

DEAR STEPMOTHER: A real mother is one who marries a man with children and raises them. Or one who will hound the adoption agencies until a child is placed in her home. In my opinion, she is more of a "real" mother than the one who raises a child solely because she reluctantly (or accidentally) had one.

DEAR ABBY: I am 18 and have been married for two years. My husband is 23. He likes to go to places where they serve hard liquor and listen to the music. He says he has to go alone because, even though I'm married, I am not old enough to go to those places, and he is too strait-laced to lie about my age. So he goes alone and I sit home. Is this fair? What can I do about it? It will be three years before I'll be old enough to go with him.

UNDER AGE

DEAR UNDER: Strait-laced? If you fall for this line you belong in a jacket of the same name. He knew how old you were when he married you. He should limit his entertainment to places he can take his wife.

DEAR ABBY: When people need glasses, they get them. So why don't people who are hard-of-hearing get hearing aids? My mother doesn't hear half of what's going on, but she pretends she does. Of course she doesn't fool anyone. When I suggest taking her to a hearing specialist she gets insulted and fights with me. Is there some sort of stigma attached to using a hearing device? Please print your reply. She reads EVERYTHING but she doesn't hear much.

WORN OUT FROM YELLING

DEAR WORN: There is no stigma attached to using a hearing device. (The modern ones are scarcely visible.) Those who don't hear "half of what's going on" are missing half the fun in life. (P.S. MY hearing is excellent and I own no stock in the hearing aid companies.)

Unload your problem on Abby. For a personal reply, send a self-addressed, stamped envelope to ABBY, care of this paper.

For Abby's booklet, "How To Have A Lovely Weddding," send 50 cents to ABBY, Box 3365, Beverly Hills, Calif.

Remember When

September 18, 1952

City Manager Russell Rink announced that work would start on the final link of widening and paving Indian Avenue, a short stretch before the Indian bath house, within two weeks and would be completed in 90 days.

Dr. Arthur Hoff, superintendent of the Palm Springs Unified School district, said that total enrollment in all schools in the district had reached 1,589.

Mrs. Marjorie Caylor, R. N., has been named public health nurse for Palm Springs with offices at the Palm Springs Health Center, 459 East Amado Road.

September 18, 1942

The old Palm Springs airport in the northeast portion of the city was leased to the U.S. Navy for mooring of lighter-than-air craft en route from the east to the coast.

City Clerk Roy Colegate was disappointed in his desire to join the Navy. He received word that injuries sustained in an accident five years ago prevented his enlistment.

Village shoppers were notified to "Buy it on Saturday," as local groceries joined in a plan for Sunday closing.

September 18, 1832

A. F. Hicks filed for one of the five positions on the Coachella Valley County Water District board. The election was scheduled October 23.

Plans were announced for construction of a 300-seat theater in the El Paseo building. It will be built for Leslie Cuffs, Lake Arrowhead theater man and now operating the Casa Palmeras apartments here.

RALPH KAPLAN REPORTS

American Education Needs Tightening Up

One of President Kennedy's closest advisers urged to name Vice Admiral Rickover U. S. commissioner of education to replace Sterling McMurrin. Rickover is not only the father of the atomic submarine but he has been advocating for years that American education be "tightened up' and be adapted to our modern-age requirements. It is his contention that our schools are way behind European and Russian schools in academic results, an observation with which I concur.

I have had the privilege of teaching and studying in several countries including the United States, and I am not very impressed with a great many aspects of our own educational system. We do not teach English properly, and as one's mother tongue is the tool without which no basic education can take place, we need words to think in; if we have a small vocabulary then our thoughts must remain underdeveloped, for nobody can think beyond his vocabulary. This applies not only to the spoken language but equally to the written word and there are too many high school and college graduates whose spelling would have disqualified them from elevation into a higher class if their school had been in Bonn, Paris, Rome, Madrid, Zurich or Moscow.

Overcomes Obstacles

This is only one aspect, there are others and, of course, this is a generalization, for the genius of the individual cannot be suppressed and the peak performance finds it way through any kind of obstacle. What we all should be concerned with is the median, the average, for it is he who makes up the pattern of our culture. Mr. Genius lends it originality but the weaving is done by very average people. These do not always have average education and the challenges of life cannot be met when one is ill prepared. In the final analysis it is the result that counts — and we have not done too very well. The Soviet Union is straining to pass us in the field in which we believed to be unsurpassable: Science and technology. This is ultimate proof that there is no monopoly on brain and no tradition in learning. Any child can learn if given the proper opportunity and the right attitude towards learning.

I am reminded of the father who urges his son to go to college so that he can get on in life. His son cut him short by saying: How come, dad, that those with degrees work for those who have none?

We do not have enough respect for education, this is also a reflection upon the educator as teaching in the U.S. is by and large not a greatly desired and honored occupation. How different is is in other countries! Our teacher is rated on a par with the physician and the lawyer. His training is as complete and demanding. A fine distinction is made between an instructor and an educator; the instructor teaches a simple phase of human activity such as swimming, but the teacher is part of the complicated system of applying human intelligence to the requirements of living.

None Deep Enough

There is no course of instruction deep enough, complete enough and far reaching enough that it could take care of our requirements throughout the entire span of our lives. But if we learn HOW and WHY we learn then we have incentive and know how. These two, coupled with intelligence, produce better citizens and happier people.

On the other hand American education, is open to all children whereas in other countries education is primarily for the intellectual elite. I wonder what percentage of the overall population of Germany, England, France, and Russia have the advantages and potentials for development offered every American. There may be disadvantages in our universal education but they are not unsurmountable.

When our children go back to school, let us make them aware that the development of their faculties and talents is the only future that America—that any country—really has, for it is only through education that we can beat off the stormtroops of communism which put in jeopardy the peace of the world.

Letters to The Editor

Editor
The Sun:

Although there has been an increase in America's boy population in the last five years, scout membership has grown two and a half times as fast.

Scouting is preparing our youth today for vital participation as adult citizens in the affairs of our nation in the years ahead. Fundamental needs for the days to come remain the same — the need for spiritual strength, character development and the unselfish brotherhood of man.

The Riverside County Council Boy Scouts of America, which administers the programs of scouting in the Palm Springs district has made a splendid growth in activities.

Today hundreds of boys are active in the three phases of scouting — Cubs, Scouts, and Explorers. Making scouting possible through their services in many capacities are the adult volunteers — men and women who devote many hours to the development of our youth.

To expand the program and its work, the Palm Springs district now launches its membership campaign for boy members, adult volunteer members, and sustaining members.

The sustaining membership gives friends of scouting an opportunity to express their deep interest in this worthwhile organization through a "plus contribution" beyond any they make to the Community Chest Drive.

It costs $3,500 to keep a boy in reform school for a year. But for $18 the Riverside County Council can give a boy scouting for one whole year.

'Never Been Busier or Happier,' Marthe Zepfel Writes

Palm Springs Girl Works with Orphan Children in India

Volunteers Service to Foundation

Marthe Zipfel, who for the past ten years has worked as a governess for the family of the late Robert Howard of Palm Springs, has an exciting new career.

Two months ago, she left San Francisco under the auspices of the Thomas A. Dooley Foundation to donate her services to the Tibetan Refugee Self-Help Center in Darjeeling, India.

"I've never been busier nor happier" writes the French girl from her mountain post.

That the comely, five-foot brunette keeps busy is understandable. She is helping care for 400 children whose tattered clothing neither covers the sores on their bodies nor protects them from the merciless winds of the perpetually snow-capped Himalayas.

'Shoes on Their Feet'

"My ambition," writes Marthe, "is to scrub every one of them and put warm clothes on their backs, shoes on their feet."

She bought sponges and soap and started bathing the children immediately. However, she doesn't know how the clothing will materialize. Nor can she figure out how to wash the clothes they are now wearing. "They are only rags," she said in her letter, "but one set of rags per child is all there is."

The haven for the children is run by the Indian Government. It came into being when the Dalai Lama, political and spiritual leader of Tibet, and 100,000 followers fled from the Communist domination of their country.

Not all the children are orphans, but all are parentless. And all are survivors of the tortuous flight for freedom over mountain passes 15,000 feet high. The orphans are the children of parents who didn't make it. The others were left at the Center when parents joined caravans in search of work in other parts of Northern India.

Help Needed

Dr. Verne Chaney, executive director of the Thomas A. Dooley Foundation with an office at 442 Post St. in San Francisco, expressed the hope that donations to the Foundation would be generous enough to help Marthe realize her ambition of seeing the children adequately clothed. Dr. Chaney gave up a surgical practice in Monterey to dedicate himself to the work started by his good friend the late Tom Dooley.

The Foundation director believes that only by the constant exposure of decent Americans to the people whose political ideology is undeclared, can we hope to present the merits of a free society. "To this end," he said, "the Tom Dooley Foundation is accelerating its efforts to secure 'corporate sponsorship'."

Dr. Chaney said that before Marthe left San Francisco, she received the usual indoctrination given to Dooley Foundation volunteers; mainly, that it is not necessary to carry the American flag in one hand and the Bible in the other. "She was told to let her instincts as a compassionate human being guide her," Dr. Chaney added, "and to let her deeds be her weapon for democracy."

'Wonderful Faces'

"You should see the awful condition of my once beautifully manicured nails," writes the spirited young volunteer, who was born in Luxembourg, was imprisoned by the Nazis while still in her early teens for working with the resistance, and became a naturalized citizen of the United States ten years ago. "But it doesn't matter about my nails," her letter continues. "The children don't mind. You should see those wonderful faces break into smiles as they come running towards me, to greet me, to touch me when I arrive. I love them, all four hundred of them."

Miss Zipfel believes that the warm reception accorded her by the children and staff is due to the good work done there by her predecessors, Marleane Thompson and Margery Burgy, Pan American World Airways stewardesses from San Francisco. Marleane, whom the children called 'Angel Teacher,' and Margery, named 'Goddess of Learning,' were given a four-month leave of absence by Pan Am to work with the children.

'Corporate Sponsorship'

"This is what we mean by 'corporate sponsorship'," explained Dr. Chaney, "corporations sending out an employee for short periods of time to work in Viet Nam, Cambodia, northern India, and other crucial areas of Asia. The presence of secretaries, drivers, teachers, nurses and doctors eventually will make these people realize that 'American' does not need to be prefixed by 'ugly'."

Miss Zipfel's letters cooraborate this with, "Never have I felt so needed and wanted."

"The hardest part of all," she continues, "is to leave the children at night to sleep in their rags on the floor — no beds, no blankets, no toys, no books, no nothing, nothing, nothing."

Marthe, who was sponsored into the United States by Robert Eunson, chief of the Associated Press in San Francisco, and his wife, spends her days with the stateless Tibetan children. At night she goes to a hotel room.

"When I get there" Marthe writes, "I have my supper and fall into bed. I think of those pitiful babies, but not for long. Sleep comes quickly. Perhaps because I am very tired. Perhaps because I've found a kind of happiness I've never known before."

DISCUSSING 'THEIR CHILDREN,' (all 400 of them) are, from left, Margery Burgy, Marthe Zipfel, and Marleane Thompson, who have one last meeting before Marthe leaves for volunteer service with the children at the Tibetan Refugee Self-Help Center in Darjeeling, India. Miss Burgy and Miss Thompson, PAA stewardesses in San Francisco, spent a recent leave of absence working with the children, hope to be able to do it again.

PS Juniors Plan Aid to Au Chau Kuen

Members of the Palm Springs Junior Woman's Club were accompanied by an unusual visitor when they went to Indio on Saturday to attend a luncheon and workshop sponsored by De Anza District of the California Federation of Women's Clubs, Junior Membership.

Their "guest" was a curly-haired doll, the size of a six-month-old baby, who appeared in her stroller to display a complete wardrobe handmade by the local juniors as a crafts project.

The blue-eyed Miss has an official duty — to inspire donations which will be used to support another Miss, this one named Au Chau Kuen, the juniors' 10-year-old Chinese foster daughter who lives in Hong Kong.

The names of all those contributing to the fund for Au Chau Kuen will be kept until Dec. 1, when one of them will receive the doll, complete with wardrobe and accessories, as a prize.

Among the juniors attending Saturday's workshop were Mrs. Ronald Jahelka, president of the Palm Springs club and auditor for De Anza District; Mrs. Robert Gadbois, district safety chairman; Mrs. George Marshall; Mrs. Jerry Stickles; and the coordinators from the Indio Woman's Club Mrs. Nolan Richter and Mrs. Charles Schwenck.

Legion Auxiliary Meeting Tonight

Plans for the coming year will be made tonight when members of Owen Coffman Unit No. 519, American Legion Auxiliary meet for the first business session of the club year at 8 o'clock in the War Memorial Building.

Emphasis will be placed on membership, reports from the recent convention, and plans for a dinner to be given jointly with the Owen Coffman Post for the Girl and Boy Staters, who will be honored guests.

Girl Scout Roundup on TV Monday

"The Road to Button Bay", which will be seen on Channel 2 (Station KNX-TV) from 9 to 10 p.m. next Monday, is a real-life treatment of the 1962 Girl Scout Senior Roundup at Button Bay, Vt. which was attended by 16 Senior Girl Scouts from Riverside County.

The TV story of Roundup — the largest encampment of girls ever held in the Western world — will be told through the experiences of a patrol of eight Senior Girl Scouts from Kansas, three of whom are specially featured. But since the movie cameras followed this group to several events involving many or all of the 10,000 Roundup campers, local Girl Scouts will be hoping for a glimpse of someone they know.

"We hope," says Mrs. John L. Roberts, president of the De Anza Girl Scout Council, "that everyone in Riverside County will be watching "The Road to Button Bay." We are sure that it will be an enjoyable hour, and we think it will give many people a new appreciation of what Girl Scouting means to our teen-agers."

Among the Riverside County girls who attended the Roundup as representatives of the De Anza Girl Scout Council were Margot Morrison of Palm Springs and Sandra Jackson of Hemet.

Grass Stains on Rugs Should Be Treated at Once

It can be pretty frustrating when your reward for mowing the lawn (of COURSE there are lawns in the desert—sometimes) is a grass stain on your carpet. If left for any time, the green spot can turn yellow or brown, and prove difficult to remove.

But if tackled immediately, rug experts say, the blemish usually can be eliminated. Here's the approved treatment:

Mix one teaspoon of light-duty detergent in half a pint of lukewarm water. Apply a small amount to the spot. Blot. Then apply small quantities of clear lukewarm water, blotting after each application.

When the stain has gone, cover area with toweling and place a weight on top. Leave in place four to six hours.

SHOWN HERE in her lace-trimmed bridal gown of silk organza is the former Miss Diane Seldeen, whose wedding to Richard Poliak, son of Dr. and Mrs. B. H. Poliak of Palm Springs, was an event of interest here and on the Coast. The bride, daughter of Mayor and Mrs. David Seldeen of Artesia, gave her vows at a 5 o'clock ceremony which took place earlier this month at the Lakewood Country Club. A reception and dinner followed. Mrs. Bruce Seldeen of Baltimore, Md., was the matron of honor, and Carol Poliak, the benedict's sister, served as the junior bridesmaid. The just-wed pair are making their home temporarily at Camp Gordon, Ga., where Richard is stationed with the United States Army.

A man may fall many times. But, he won't be a failure until he says somebody pushed him.

In the Good Old Summertime

Place Names Are Fun

By LEE CHRISTOPHER

One of the most exciting dividends in moving to a new community is the discovery of its place names, and certainly Palm Springs and its surrounding desert is rich with terms that bespeak a colorful, unique, and interesting past.

Surprising, too, is the fact that so many "natives" don't know the derivation of a great many of the names that are so much a part of their daily living.

Do you, for instance, know what "coachella" means? I've asked a dozen or so people who have lived here for a dozen or more years —and not one of them had the foggiest notion.

Having fallen completely in love with the desert, I'm reading everything I can about it, and only recently I've come across Gayle Pickwell's fine, definitive book called, simply, "Deserts," and there I came across "Coachella."

Dr. Pickwell says that Coachella Valley has been an inland sea that alternately filed with water and then dried up again when the Colorado River meandered off someplace else. But when the water WAS there, it was the home of multitudes of little snails. The water and the snails are gone, but the shells are still there, uncovered when the sand drifts back and forth.

She says that the citizens of the valley translate "coachella" as "little shells," although it is not a true transation, uness it has been corrupted from the Spanish word "conchiella," which DOES mean "little shells." Anyway, it is a charming and picturesque name, and I hope "coachella" does, indeed, mean "Little Shells."

And that's the geography lesson for today. (Or did you already know it?)

Of more immediate interests is the news that Mr. and Mrs. Kenneth Jackson of 1966 Jacques Road are the proud possessors of a son, born last Thursday night at St. Vincent's Hospital in Los Angeles. Weighing 7 pounds and 14 ounces, he has been named Kevin Douglas Jackson — and, not at all incidentally, he is the 24th grandchild of Mrs. Mildred Jackson! His mother is the former Miss Roselle George.

Back in Palm Springs after being away for six years in Miami, Fla., is Mrs. Sylvia Horne — who says she is "so amazed and thrilled at the growth and added beauty of Palm Springs" that she never would have left if she had known this would happen. She formerly owned the Casa de Beverly at 296 S. Palm Canyon Drive and the Kingsley Apartments on Hollywood Boulevard in Los Angeles; she now has the Sea Spray Apartments in Miami.

Joyce Chapman has returned home to Palm Springs after spending part of the summer studying real estate law at UCLA — and, of course, relaxing at Balboa. Now she is fit to dive into the work of Joyce Chapman Realty, which she owns.

Among the local gals off to college is Clare Wagner, daughter of the Daniel Wagners, who will be a freshman at Southern Methodist University. Madeline Wagner made the trip to Dallas with her daughter; is back again for the season.

Desert Duplicate Bridge Club Winners Are Named

This week's meeting of the Desert Duplicate Bridge Club, held at the Pavilion, found 10 tables in play. Using the Skip-Mitchell Progression Movement, the winners were:

North-South

Mr. and Mrs. L. M. Linick, first, percentage 53; Gertrude Markland and Margaret Elser, second, percentage 52; Mr. and Mrs. Vincent DiPaola, third, percentage 51; and Orrin Enders and Carl Lamer, fourth percentage 50.

East-West

Doris Goldman and Betty Reissman, first, precentage 65; Lea Worth and Jessie Barrington, second, percentage 60; Mr. and Mrs. Seaman Kay, third, percentage 58; and Mr. and Mrs. True Boardman, fourth, percentage 53.

The Winners Game for the Palm Springs Unit of the ACBL will be held at the Pavilion on Oct. 7, beginning at 7:30 p.m. After that date, Sunday activity for the unit will take place at 1:30 p.m. instead of 7:30.

Thomas L. Livermore, an expert on Civil War casualties, estimated that 112 of every 1,000 Federals in battle were wounded. The Confederate figure was 150.

There is no greater security than the knowledge that one is doing the right thing.

Horoscope Forecast

By CARROL RIGHTER

Wednesday, September 19, 1962

GENERAL TENDENCIES: Now you have a day in which much restlessness is present for almost everyone. It is necessary that you be "still" for a while and let the intuitive perceptions that are also high now express themselves. Take pains to show whomever you like most the depth of your devotion. Then anxieties cease and feeling of security remains for whomever acts in this fashion.

ARIES (Mar. 21 to Apr. 19) — Going to sources that are best brings the data you sorely need at this time. Follow your intuitions. You can get bargains if you are alert, too. Be happy with mate in P. M.

TAURUS (Apr. 20 to May 20) — By being most courteous with others, you get excellent cooperation in return. Keep your purse zipped, however. Get out socially or to the theater, etc., in P. M.

GEMINI (May 21 to June 21) First get your abode in most charming order so later you can get out for personal desires and business. Surprise others with your talents. Take health treatments in P. M.

MOON CHILDREN (June 22 to July 21) — Much research in A. M., will bring the answer for which you have been searching. Later you can get together with associates for a fine time. Be amusing and gay. Dress nicely.

LEO (July 22 to Aug. 21) — Go to those who think logically for the data you require at this time, and be sure to ask questions. Be happy with family in P. M. Invite friends in and inspire them.

VIRGO (Aug. 22 to Sept. 22) — Time to buy loved one a little gift and also get charming objects for abode. Also, endeavor to do something nice for higher-ups, increasing prestige thereby.

LIBRA (Sept. 23 to Oct. 22) — Greater abundance is possible now by contacting the right people, either in business or socially. Be clever, neat, artistic. Make new contacts in P. M. — preferably from another country.

SCORPIO (Oct. 23 to Nov. 21) — A day and night to be kind to everyone. Let the best part of your nature manifest itself. Spend some time with loved one during day. Then you have great success.

SAGITTARIUS (Nov. 22 to Dec. 21) — Private conferences with others bring excellent benefits and joys where close ties are concerned. First be sure you know what it is you want. Then meet with right people.

CAPRICORN (Dec. 22 to Jan. 20) — Look to loyal friends for whatever you have closest to your heart now, and they will gladly help you to attain desires. Labor diligently. An improvement in health denoted.

AQUARIUS (Jan. 21 to Feb. 19) — You must use different methods if you are to gain prestige and greater fame now. Be more artistic where your profession is concerned. Then others will admire you.

PISCES (Feb. 20 to Mar. 20) — Making new and helpful contacts is very possible today. Get into the world of activity if you want to get the information you need. Be sure you read your paper thoroughly.

If Your Child Is Born Today You will soon find that there is a highly artistic sense here and it is up to you to encourage your progeny to express himself, or herself, and also have the benefit of the finest teachers. There is mental brilliance here and writing, public speaking, dramatics are indicated. Find out forte early and educate along such lines. Give religious training.

"The Stars impel, they do not compel." What you make of your life is largely up to "you"!

Carroll Righter's Individual Forecast for your sign for October is now ready. For your copy send your birthdate and 50 cents to Carroll Righter Forecast, The Desert Sun, Box 1921, Hollywood 28, California.

Angels Hope to Bounce Back Into Win Column

LOS ANGELES (UPI)—A little over four months ago—May 5 to be exact—a cocky rookie named Bo Belinsky took the mound for the Los Angeles Angels and pitched a no-hit 2-0 victory over the Baltimore Orioles.

Now well - known and well learned, Belinsky (8-9) attempts to salvage some of his pitching reputation and some of the Angels pride when he hurls against the Orioles tonight in the opener of a two-game series.

Los Angeles enters the game with a five-game losing streak. The Angels still are in third place, but they're 6½ games behind the league-leading Yankees and in danger of falling to fourth or even fifth.

The Angels have gone winless since returning home Wednesday night against the Kansas City Athletics. Los Angeles dropped two to KC and three more to Detroit.

It's a disappointing finish for a club that all season long had mystified the baseball world by remaining close to the top. And to make matters worse the Angels are blowing the games with errors.

Pitching for the Orioles tonight will be Chuck Estrada (8-15).

Mentioned as set to be traded to Kansas City in 1963 after a mid - season "gentleman's agreement" between the Angels and A's Belinsky still is very much around. Whether he will be next season is undeterminable at this time. But a victory tonight would bring back some of the luster he had when he was 5-0 back in May.

The Angels, however, will have to get Bo some runs. Los Angeles has scored only five times in the last 26⅓ innings Belinsky's pitched. Even Bo can't be blamed for that—though he's been blamed for many other things.

Though they provided his brightest moment in the no hit win, the Orioles also were present when Belinsky began to fall. The rookie lefthander suffered his first season loss at Baltimore.

The teams have met 16 times previously this season, with Los Angeles holding a 9-7 edge. A victory in one of the games would give the Angels the season series.

Los Angeles will have two new players for tonight's game. Outfielder Dick Simpson and pitcher Bobby Darwin joined the team Monday from Los Angeles's San Jose farm club in the California League.

Late Deer Season in State Opens Saturday

California's late deer season will open Sept. 22 and run through Nov. 4, except for Northeastern California which has a season of Sept. 22 to Oct. 21. Shooting hours are from one half hour before sunrise to one half hour after sunset.

There is a two buck limit in Del Norte and Trinity counties, and portions of Humboldt, Siskiyou, Shasta, Tehama, and Glenn Counties. The one buck limit applies in the balance of the state for the late deer season.

Several counties are split between the early season, which ends Sept. 23, and the late season, which opens the 22nd. These counties include San Diego, Riverside, San Bernardino, Los Angeles, Kern, Kings, Fresno, Merced, Stanislaus, Glenn, Colusa, San Joaquin, Trinity, and Humboldt.

The one buck and two buck areas, and early and late deer season areas, are outlined in detail in the 1962 hunting regulations booklet available from any hunting license agent.

Bucks must be forked horn or better, with at least one fork in the upper two-thirds of either antler. Eye guards and bony projections are not considered points or branches.

Deer populations are slightly below normal, due to drought conditions over the past few years. Animals will be scattered, due to a plentiful supply of water and forage.

In Southern California deep populations are slightly below normal, but animals are in good to excellent condition. Deer will be found scattered and at all elevations, due to improved water and forage conditions. The buck carryover last year was fair to good. Fire hazard is high in all areas of the Southland. Only the eastern portions of Los Angeles, San Bernardino, Riverside and San Diego counties are in the late deer season. Other portions are in the early season.

Amateur Photo Contest Sunday at Biltmore Hotel

Amateur photographers are urged to get all their cameras and equipment ready for the contest to be held at the Palm Springs Biltmore, Sunday, it was announced today.

There will be prizes for the best picture in the action, scenery and portrait divisions, plus prizes for the best overall photo taken around the Biltmore grounds. Results will be published in The Desert Sun.

An exhibition of prize winning photographs by Palm Springs top professional photographers are on display this week to give the amateur photographers some inspiration.

Models will be stationed at the tennis court, swimming pool and putting greens to add interest to the pictures.

For the action shots, a "Twist Contest" will be held with the Jody Reynolds groups, "The Storms" playing for twisters.

Judges will be Gaylord Richmond, art teacher of the College of the Desert, Bob Nims and Bob Abbey of The Desert Sun and others to be announced.

TWO LOCAL WOMEN golfers, Dorothy Callahan, left, and Vivian Lefton, members of the PS Women's Golf Club won awards in the 18-hole tournament staged at the Whispering Lakes Country Club at Ontario. Miss Callahan topped the field in the 'D' flight to win top honors with a low net of 29 in the selective nine event. Mrs. Lefton fired a low net of 33 to finish fourth in the strong field of Southern California women golfers. (Desert Sun Photo)

NEW 18-HOLE COURSE

Yucca Valley Country Club to Stage Meet

Three days of golfing activity will be on tap at the Yucca Valley Country Club this weekend when the Second Annual Invitational Golf Tournament will be staged officially opening the club's new 18-hole course.

Co-sponsored by the city of Yucca Valley and the Country Club, the 36-hole tourney will swing into action Saturday when the first round gets under way. Sunday the final 18 holes of the two-day tourney will be played and immediately following awards and prizes to winners and runners-up will be made at the clubhouse.

To get the golf event off on a good footing, a practice and sweepstakes round will be conducted on Friday prior to the start of the tourney on Saturday. Friday's events will be highlighted with a cocktail party at the Country Club commencing at 7 p.m. and a tournament dinner for contestants and wives will be enjoyed Saturday evening. These two evening events are included in the entry fee as is the practice and sweepstakes round on Friday.

Awards and prizes will be given to winners of aggregate low net of partners, aggregate low gross of partners and individual low gross, Roger Lenhardt, club pro indicated.

A field of more than a 150 desert area golfers are expected to tee off Saturday following the practice and sweepstakes round on Friday.

Lenhardt also indicated that all linksters intending to participate in the second annual golf tourney must have their handicaps verified.

The layout is an 18-hole course now, which according to tournament officials is groomed to perfection for the tournament play.

Early Wynn Goes After 300th Pitching Victory

CHICAGO (UPI)— Early Wynn goes after that elusive 300th pitching victory tonight when the Chicago White Sox meet the Boston Red Sox.

Wynn, a veteran of 22 major league seasons, hit No. 299 almost 10 days ago. But the White Sox went on the road before his turn came around again and the club brass is determined that No. 300 will come on home grounds, if at all.

324TH OF HIS CAREER

Spahnnie Razor Sharp To Whip Dodgers, 2-1

MILWAUKEE (UPI) — Los Angeles will have to win tonight if it expects to move closer to the National League pennant. The Dodgers can't depend on the Giants losing—San Francisco is idle.

The Dodgers dropped their second game in a row Monday night, as Milwaukee edged Los Angeles 2-1. But once again the Dodgers cut another game off their magic number for the championship.

The reliable Giants lost their sixth game in a row and remained four full games behind the Dodgers. So any combination of seven Los Angeles victories and San Francisco defeats assures the Dodgers no less than a tie for the pennant. Any combination of eight and they can start shouting "Wait 'til next year" from the Top of the Mark.

It appears the Dodgers may have their title soon. But Maury Wills hasn't moved any closer to his goal of establishing a stolen base record.

The little Los Angeles shortstop still has 92 thefts for the season. He doubled in the eighth for his only time on base Monday night and didn't even attempt to steal. So he has five more games to get the needed five stolen bases that would break Ty Cobb's major league record of 96 set in 1915.

Cobb established his mark while playing in 156 games for the Tigers. Should Wills top the record after the Dodgers' 156th game—they play 162 this season—it probably would have an asterisk in the record book such as Roger Maris' homer record.

Warren Spahn, who hever has gone very well against the Dodgers in his long career, cut down Los Angeles with five hits as the Braves won the opener of the three-game series. One of the safeties was Frank Howard's 29th home run.

Spahn ended a personal three game losing streak against Los Angeles in gaining his 15th victory of the season and 324th of his career. The 41-year-old lefthander also drove in what proved to be the winning run when his force out in the second inning scored Tommie Aaron from third.

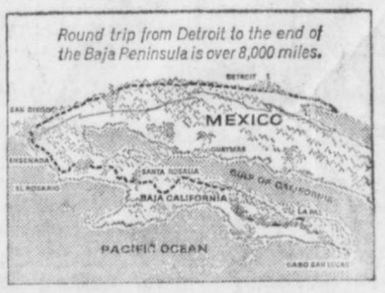
Tough new '63 Chevrolet Trucks are here!

...THE ONES THAT WHIPPED THE BAJA RUN...TOUGHEST UNDER THE SUN... TO SHOW THE WORTH OF NEW ENGINES, FRAMES AND SUSPENSIONS!



Millions of years ago nature fashioned a proving ground for trucks that man can never duplicate. Today it is known as the Baja (bah' hah) California Peninsula, Mexico.

These pictures give you only a bare idea of the place. The road bears no resemblance to the modern highways on the Mexican mainland. It's fine for 140 miles below the U.S. border. Then the beating begins. Rocks and hard-baked ruts bang, punch, jab and jerk the trucks from stem to stern. Loose sand makes them struggle and strain. Dust chokes them. Heat roasts them. Rivers drench them.

The Baja Run took this Chevrolet caravan 17 days to go the 1,066 miles.

All the trucks performed magnificently. Not one was forced to drop out because of mechanical difficulty.

Trucks that can take this kind of beating can take on your toughest truck jobs. Come in now and see tough quality-built '63 Chevrolet trucks with all their new improvements.

CHEVROLET

QUALITY TRUCKS COST LESS

When you came to a river, you got wet. This Baja river bottom was covered with rocks the size of melons.

Tight squeeze for the conventional medium- and heavy-duty units. Their new narrower front ends certainly paid off here (7 inches slimmer).

Sometimes the caravan crept along for hours in low gear. This is the road south of Loreto, narrow, twisty, rocky.

The new ladder-type frames on all models took severe punishment from terrain such as this.

Temperatures as high as 122 degrees F. burned the land in the desert area around Dry Lake.

See the "New Reliables" now at your Chevrolet dealer's!
